Notes

This list follows in general the order of the "International Missionary Bibliography" in the International Review of Missions. Certain categories, however, have been subdivided and several new ones added.

Only the more important pamphlets have been included. Titles published before 1953 are not included.

Prices listed for United Nations publications are United States prices since these publications may be obtained at the International Documents Service of Columbia University Press in New York City. In the case of foreign publications, the price has been given in the currency of the country of publication, whenever this information is available.

Your local book agent or library can indicate where foreign publications are available in this country. Friendship Press is the agent for Edinburgh House Press and the World Dominion Press. Student Christian Movement Press publications may be secured from Macmillan, and most Lutterworth Press items, along with many other British publications in missions, may be purchased from Alec R. Allenson, Inc., Chicago.

Reports and periodicals are not listed. A list of current periodicals may be obtained free of charge upon application to the Library. Very few government documents are listed.

Additional copies of this list may be secured at fifty cents each.
